

- **DIFFERENT TYPES OF METAL**

- This is another way to reproduce an image onto a substrate. The metal prints can either bring life to a family portrait or take an artists' piece to a new level. Metal prints are currently very popular, and go well with a modern decor, and they display well without a frame.
- We have 4 different types of metal prints:
 - Glossy White
 - Glossy Clear
 - Matte White
 - Matte Clear
- This can be hung on a wall with just command strips.
- It can also come with a wooden backer.
 - This is a great way to hang your metal print allowing a little bit of room between the front of the print and the wall and adding a drop shadow below the print.
 - Any metal print can come with a wooden backer starting at \$7.50.
- Metal prints are quite scratch resistant apart from any hard metal-like surface (i.e. fingernails, pens, and pencils are safe).
- They are not affected by many cleaning sprays. This means you can clean them with Windex, rubbing alcohol or even sanitize with a household bleach.
- See our price sheet for a cost.
