

RCP DIGITAL RESTORATION

• DIGITAL RESTORATION

- Digital restoration is a software on the computer to repair a scanned in image of the original so that higher quality prints can be made of it.
- Different types of restoration include but are not limited to:
 - Cracks throughout an image.
 - Tears
 - Fading
 - Stains
 - Part of the image is missing
 - Mending separate pieces
 - Turning an image into a true Black and White.
 - Adding or Enhancing Color
 - Enhancing Contrast
 - In some cases, sharpening an image
- It is important to note that once the restoration of an image is completed, that image is saved in our files and can be reprinted at any time without needing to pay for restoration again.
- Restoration is \$90 per hour with a minimum of 5 minutes. This is a service that will be quoted beforehand.

Open Monday - Friday 9am - 6pm
Saturday by appointment only
